Training delivery

A training titled “Strengthening of the role of home gardens in improving food security in Fergana valley” was conducted in Kuva district Fergana Province on 6 April 2015.

The goal of the training was to improve the livelihood and dietary nutrition of the rural farmers living in Fergana valley through intensive use of a land by cultivating vegetable crops.

Objectives:

- Improving of a food security of the population in the Fergana Valley through the cultivation of vegetable crops in different terms of sowing;
- Strengthening of the capacity of rural population in cultivation of vegetable crops in home gardens and improve
- Improving human nutrition through awareness about importance of vegetables consumption
- Making rural farmers aware of the early ripening varieties of vegetable legumes to improve soil fertility through diverse crop rotation and cultivation of high value crops under hot and dry summer season

The training was within the framework of the CRP-DS and jointly by ICARDA, AVRDC with the support from the Kuva District Administration Office (Khokimiyat), Kuva Water Users’ Association (WUA), Women Committee of the District, local Research Institute, and local University.

Total 114 people participated on the Training, including 81 women (71%) and 31 men. Among them were local villages committees’ representatives, women groups, rural householders and the farmers.

The training presentations were made by the specialists of the Uzbek Research Institute of Vegetable, Melon Crops and Potato, Tashkent State Agrarian University and AVRDC-CAC.

Training program included lectures on vegetable production status and problems, improved technologies dissemination on vegetable seedling production, new varieties characteristics and its’ cultivation technology, safe vegetable production, bio-pesticides, seed multiplication in home garden conditions, and non-traditional crops use for a diet diversification. Discussion was conducted during training also.

Many agricultural crops, including vegetable species were frosted due of natural disaster occurred in Uzbekistan in the end of March and beginning of April. AVRDC distributed to householders of Kuva district by 80 kg of 12 vegetable species. Booklets on vegetable varieties cultivation technology were distributed also.

The local administration emphasized the importance of conducted measures and extended thanks to training organizers.

Output: Capacity of the participant home gardeners was strengthened through information sharing.

Glimpses of training

List of participants on the Farmers' Training in Fergana Region, Kuva District, 6 April, 2015

No	Name of participant	Gender	Organization	Position	Contact information
1	Abdurakhimov Kh	Male	Baynay Village Council	Head	(+99890) 408 90 38
